## EXPERIENCE

---

### GreySpark Partners

*Python/ Java developer, Machine learning engineer*

Hong Kong

Mar 2020 - Present

- Worked as a python developer and machine learning engineer in data analytics project (DS-OL) with financial regulator.
  - Developed machine learning algorithm and quantitative analysis for trade order data and FIX messages
  - Successfully transformed 7 types of regulation into programming logic by python and SQL
  - Assisted in web app development and DS-OL data visualization
- Served as a back-office java developer in two Tier 1 Investment banks
  - Implemented a data transformer from Fidessa order and trade flow data into DS-OL format
  - Implemented a data transformer from Bloomberg TOMS into Calypso
- Worked as a python/ C# developer in a buy side firm Investment ops team
  - Implemented derivative reconciliation app with automated document extraction
- Conducted training sessions in quantitative finance for global teammates in HK and UK

### Run Hua Investments Group Company Limited

*Junior trader & Python programmer*

Hong Kong

Nov 2017 - Mar 2020

- Successfully handled Quant strategy based on CTA fund with over 20M HKD AUM
- Built a semi-automated trading system establish connectivity between Reuter's/Bloomberg data API and IB trading API
- Built software for data visualization of portfolio performance
- Developed new quantitative strategy and financial market research
- Assisted placing order for position changing and futures contract rollover with trading plan

### Hong Kong Applied Science and Technology Research Institute

*Python/ R Developer, Data analytics*

Hong Kong

Jun 2015 - Nov 2017

- Participated in multiple projects in algo trading and financial modelling. Built portfolio and trading strategies in HK and US market with quantitative tools
- Successfully applied machine learning-based and optimization methods in various projects
- Assisted in deep learning research (Publication: S. S. Y. Ng ; W. Zhu ; W. W. S. Tang ; L. C. H. Wan ; A. Y. W. Wat 2016. An independent study of two deep learning platforms - H2O and SINGA. IEEE International Conference on Industrial Engineering and Engineering Management)

## EDUCATION

---

### WorldQuant University

Master of Science in Financial Engineer

2023 APR - 2025 MAR

### CQF institute by Fitch learning

Certificate in Quantitative Finance (CQF)

2022 JUN - 2023 MAR

**Passed with Distinction**

### DeepLearning.AI via Coursera

DeepLearning.AI TensorFlow Developer

2020

### Udacity

Machine Learning Engineer Nanodegree

2017 - 2019

### Hong Kong Polytechnic University

BSc(Hons) Investment science

2011 - 2015

## SKILLS

---

|                  |  |
|------------------|--|
| Python:          | NumPy, Pandas, Scikit-learn, Tensorflow, BeautifulSoup, Flask              |
| Java:            | Spring boot  |
| Database:        | Microsoft SQL server, Oracle, PostgreSQL                                   |
| Analytics tools: | Quantitative Finance, Machine Learning, Data Science, Statistical Modeling |
| Human Language:  | native in Cantonese, fluent in English and Mandarin                        |
